

RESIDENT RECYCLING PROGRAM

RECYCLING.... It's a good thing!

Your apartment community team works hard to make everything the best it can be. However, in order to do so, they need your help, too. Which is why we are reminding you, our valuable residents, to please recycle.

Our resident Recycling Programs help the environment by reducing trash in landfills. Cardboard, glass, aluminum, and newspapers may all be recycled., but recycling companies will only pick up items which are recyclable.

Never put trash into the recycling bin. Items must be sorted and put into the correct recycling bins. For example, only newspaper should be put in the newspaper bins and glass should be put in the glass bins.

When disposing of boxes, please flatten them, first.

Recycling also reduces the volume of trash collected, therefore, reducing increased costs for trash removal services. Since these costs are eventually passed on to our residents, recycling is a good thing.

Therefore, we encourage our residents to participate in our Resident Recycling Program, especially with so many of our residents now receiving more and more packages and even more during the Holiday Season.

Thank you in advance for helping your apartment community be even GREENER! We appreciate your cooperation and so will others. By all of us working together, your apartment community will continue to be a safer, cleaner and better community for everyone.
